PROJECTS
- Built e-Commerce website with 4-member team for bespoke makers of Indiana Jones gear to sell products to fans, utilizing HTML/CSS, JavaScript, Node.js, Express.js, MySQL2 and also Stripe as method of payment
- As a group of four, created an app to track miles biked, ran or walked, *Miles Ahead*, gaining experience working with a team to complete a back end project and supporting the group by ensuring deadlines were met with meticulous quality
- Designed portfolio in JavaScript, React, Node.js, and Express.js to showcase completed projects: https://kenneththelarson.github.io/portfolio-kenny-larson/
- Developed a fitness training website using HTML/CSS, *Run Buddy*, to acquire front end skills
- Used RESTFUL APIs and MySQL2 to communicate with the server and gain back end experience independently, *Tech Blog*

TECHNICAL SKILLS
HTML/CSS	React	NoSQL	Express.js
JavaScript	SQL	Node.js	REST APIs
